

A close-up, high-angle shot of a square, dark-colored microchip with gold-colored pins, resting on a complex circuit board. The chip's surface features a glowing gold logo of a brain with circuitry and the letters 'AI' in the center. The background circuitry is dark with glowing gold lines and small lights.

February 2024

EXECUTIVE SUMMARY: THE RISE OF THE PROFESSIONAL CREATOR

THE INSIGHT

Kenyan users are shifting from passive consumption to active creation. They view AI not as a toy, but as a productivity tool to achieve "Professional Perfection" and "Efficiency".

THE AUDIENCE

A sophisticated mix of Graphic Designers, Teachers, and Business Owners who already rely on complex app ecosystems like CapCut and ChatGPT.

TOP CONCEPTS

1. Move Subjects: Control over reality.

2. AI Video Director: Solving the "blank page" problem.

3. Best Group Photo: Social optimization.

STRATEGIC TAKEAWAY: USERS ARE WILLING TO ADOPT NATIVE FEATURES THAT REPLACE THEIR CURRENT MULTI-APP EDITING WORKFLOWS.

RESEARCH METHODOLOGY & DEMOGRAPHICS

Method:
In-Depth Interviews (IDI)
& Concept Testing

Sample Size:
10 Users

Age Range:
22–34 years old

Location: Kenya

Devices: Tecno Camon
20 Premier,
Samsung S10, iPhone 11,
Oppo Reno 10

User	Age	Occupation	Current Phone
User 1: George Mburu	27	Graphic Designer	Camon 20 Premier 5G
User 2: Sarah Wanjiru	29	Entrepreneur	Samsung S10
User 3: David Ochieng	31	Software Developer	iPhone 11
User 4: Jane Kamau	24	Marketing Specialist	Oppo Reno 10
User 5: Daniel Kimani	28	Photographer	Camon 20 Premier 5G
User 6: Faith Otieno	26	Content Creator	iPhone 11
User 7: Victoria Vihonda	25	Graphic Designer	Vivo V29 5G
User 8: Mark Mutiso	33	Architect	Samsung S10
User 9: Elizabeth Mwangi	30	Digital Strategist	Oppo Reno 10
User 10: Joseph Njenga	32	Video Editor	Camon 20 Premier 5G

USER PERSONAS: WHO ARE WE BUILDING FOR?

THE CONTENT CREATOR

Graphic Designers, Traders (Users 1, 2, 8, 10)

NEEDS

Business evidence, editing speed, script perfection.

THE PHOTOGRAPHY ENTHUSIAST

Teachers, Business Owners (Users 3, 5, 7, 9)

NEEDS

Image quality, composition, capturing the journey.

THE BASIC USER

Students (Users 4, 6)

NEEDS

Simplicity, fun, class presentations.

CURRENT DIGITAL ECOSYSTEM

Users currently fragment their workflow across multiple specialized apps.

Key Behaviours

Heavily editing to remove backdrops and fix lighting.

Using AI for text ideation (ChatGPT) before shooting.

Consolidating 3-4 apps to achieve one final image.

Opportunity: A native AI camera can replace this fragmented stack.

AI PERCEPTION: EXPECTATION OF EFFICIENCY

Writing Assistance
(Scripts & Captions)

Photo Editing
(Background Removal)

“I feel it is a good feature... I can copy something from one picture to another, if I took pictures in a different place that does not look good to me.”

— User 5

Drawing Assistance
(Design Work)

Sentiment: Users view AI not as a gimmick, but as a ‘Creative Assistant’.

CLUSTER 1: MASTERING REALITY

Concept 2 (Move Subjects) & Concept 1 (Recompose Photo)

User Intent:

Repositioning for status and perfect composition.

Key Insight:

"I would use it in repositioning myself between high worth individuals like the presidents in a picture..."

— User 2 (Crypto Trader).

Use Cases:

- Filling missing individuals in group shots.
- Fixing composition in street photography.
- Attaching evidence photos to documents.

CLUSTER 2: THE DIRECTOR'S CHAIR

Concept 20 (AI Video Director)

- **Problem:** The 'Blank Page' syndrome in video creation.
- **Solution:** Automated scripts and directorial guidance.

"I will perfect the scripts since there is no room for errors... and save time." — User 8.

- **Applications:** Instagram Reels, Instructional Videos, Class Presentations.

CLUSTER 3: SOCIAL PERFECTION

Concept 11 (Best Group Photo)

User Intent: Ensuring no one is the “weak link” in a shared memory.

“It will reduce the need of retaking photos... allow everyone to like the photo.” — User 3 (Teacher)

Use Cases:

- Weddings
- Graduations
- “Decluttering” disorganized setups

CLUSTER 4: PERSONAL BRANDING & STYLE

Concept 17 (AI Styling & Makeup)

- Why it Won: Virtual try-on and grooming assistance.

“I would use it on photoshoot preparation and every time I am going out.” — User 7.

Use Cases:

- Testing hairstyles
- Makeup tutorials
- Pre-shoot grooming.

THE VERDICT: THE “MUST-HAVE” FEATURES

POSITIVE FEEDBACK BY CONCEPT

THE MISSES & POLARIZING CONCEPTS

THE LOSERS

- Generative Watermarking (Restrictive)
- Live Photo (Gimmicky)

Insight: Users dislike features that feel restrictive or lack clear utility.

THE POLARIZING

Concept 22 (AIGC 360)

Insight: Charcoal Black Inter is Mixed reviews. Useful for travel, but 'Useless' for daily drivers.

WILLINGNESS TO PAY & MONETIZATION

Users are open to paid models IF the tool replaces an external app (like ChatGPT Premium) and delivers "No Room For Errors" quality.

STRATEGIC RECOMMENDATIONS

1

PRODUCT DEVELOPMENT

Prioritize 'God Mode' editing (Move Subject, Recompose). Deprioritize watermarking.

2

MARKETING ANGLE

Shift from "AI Tech" to "Creative Empowerment". Slogan Idea: "Direct Your Own Story".

3

UX DESIGN

Balance accessibility for the "Basic User" with depth for the "Pro Creator".

A black and white photograph of a man with a beard and glasses, holding a professional camera up to his eye. The image is dark and moody, with the man's face partially obscured by the camera lens. The background is a solid dark grey.

EMPOWERING THE KENYAN CREATOR ECONOMY

AI + CAM is not just about taking better photos; it's about bridging raw talent with professional output.
